

**Clarence Johnson, President and Chief Executive Officer
Somnetics International, Inc.**

Clarence Johnson has served as CEO and president of Somnetics International, Inc. since its inception in 2009. He has more than 25 years experience in the medical device and biotechnology industries and leading emerging technology companies. In his role, Johnson is responsible for setting the strategic direction of the company and assisting company management in meeting corporate goals and objectives.

Previously Johnson was president & chief executive officer of Bioenergy, Inc., a pharmaceutical/nutraceutical company with proprietary core technology targeting cardiovascular and skeletal muscle medical applications and was president and chief operating officer of Shape Medical Systems, Inc., a developer and manufacturer of cardiopulmonary exercise testing systems for heart and pulmonary diagnosis and patient monitoring.

Since 1984, Mr. Johnson has worked with emerging and growth stage biotechnology and med-tech companies in the areas of corporate finance and operations management. He holds several patents and has been published extensively in medical and lay publications. Johnson holds a Master of Science degree in microbiology (biochemistry) from the University of Minnesota.
