

## **Somnetics International Inc.**

### **Corporate Fact Sheet**

Somnetics International Inc., a privately-held Minnesota-based medical device company, is an emerging leader in customer-driven design, development and production of respiratory medical devices to treat sleep apnea and related issues. Somnetics' mission is focused on integrating technology, customer input and employee creativity to provide innovative, high-quality products that improve quality of life for people with respiratory disorders.

In 2011 Somnetics introduced waterless humidification, lightweight and portable batteries and accessories to make Transcend the most innovative small, light and portable CPAP in the world. In 2013 Somnetics expanded its product line by introducing the Transcend Auto™, Transcend EZEX™ CPAP and Transcend Heated Humidifier™.

Transcend and associated technology is protected by several issued and pending U.S. and foreign patents. Somnetics received FDA market clearance for the Transcend obstructive sleep apnea therapy device in July 2010, registration approval in Canada in October 2011, and CE Mark in March 2012.

Transcend received awards at Medtrade in 2011 and 2012 and the 2012 Best Practices Award for Product Differentiation in the Sleep Disordered Breathing market from Frost & Sullivan.

Somnetics sells its products through an established network of distributors and direct sales representatives serving markets across the U.S. and in key markets around the world.
